

# Graduate Programme 2023

## TECHNICAL INTERVIEW

Monde Mbono | Documentation | August 2, 2023

### User Web Form

- ❖ The user will first access an empty web form where they will be greeted by a message.
- ❖ The user will have to input their first name, last name, and date of birth.
- ❖ Then the user will have to upload an excel, then press the submit button.
- ❖ After the submit button is pressed, the data will then be stored in a realtime firebase database.
- ❖ The form will then reset, allowing the user to enter another dataset.
